

A thermometer for every need.

When a child has a fever, there's nothing worse than trying to take their temperature. With this in mind, Physio Logic® has created a full line of thermometers, from basic to premium, that will suit every family's specific needs. Whether it's the convenience of Accuflex® 5 and 10's flexible tip and backlit screen, the versatility of the QuickScan or our unique Fever-Bugz® fever-indicators, we have you covered!

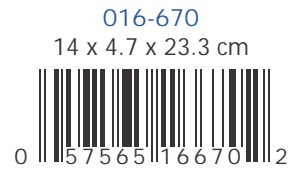

QuickScan™

Dual-use Thermometer

- 2 options for temperature readings: ear or forehead
- Digital readings in less than 1 second
- Fever-alert backlit screen
- 412 scans per second
- Easy to clean – no probe covers required!
- Displays in Celsius or Fahrenheit
- Proven clinical accuracy
- Keeps last 10 readings in memory
- One-button easy operation

Accuflex5 & 10

Flexible Digital Thermometer

- Provide clinically proven accuracy in just under 5 or 10 seconds
- For use orally, rectally or underarm
- Gentle-flex tip for added comfort & safety
- Displays in Celsius or Fahrenheit
- Keeps last 30 readings in memory
- Backlit screen
- Waterproof / washable for easy cleaning

Digital30

Digital Thermometer

- Fast 30 second reading*
- For use orally, rectally or underarm
- Displays in Celsius or Fahrenheit
- Water resistant for easy cleaning

* Average clinical test results:
30 seconds rectal, 35 seconds oral,
50 seconds under the arm.
Clinical results range from
30 to 55 seconds. Results may vary
by individual and method used.

Fever Bugz

Stick-On Fever Indicators

Fever-Bugz is the fever indicator that children love to wear. Convenient and fuss-free, it allows you to monitor your child's temperature day and night, for up to 48 hours.

- Can be worn while bathing
- Hypo allergenic
- Accurate within 0.5°C
- Clinically proven accuracy
- Latex-free
