

GAMMEX® PI Glove-in-Glove™ System

SURGICAL GLOVES

Synthetic, pre-donned double gloving system of two gloves in one enabling healthcare workers to double glove in one don

Ansell's patent-pending double gloving system is the world's first pre-donned outer and inner surgical gloves enabling healthcare workers to double glove in just one don. This system combines the semi-transparent GAMMEX® PI Hybrid, as the outer glove, delivering on the comfort of PI and the strength of neoprene, and the green-colored GAMMEX® Non-Latex PI Underglove as the inner glove for quick and easy glove breach detection.

KEY FEATURES & BENEFITS

- Pre-donned outer and inner gloves are packed in one poly-pouch and one inner-wrap to help make double gloving easier and faster, saving on half the donning time; and, with 50% less inner packaging materials used, reducing the impact on the environment
- The outer and inner gloves are aligned at the finger tips to minimize the need for adjustments upon donning
- The outer glove comes off easily and the smooth upper surface of the inner glove makes it easy to accommodate any intraoperative changes
- Both the outer and inner gloves are the same size for optimal user comfort
- Non-latex to eliminate the risk of latex Type I allergy
- Zinc 2-mercaptobenzothiazole-free (ZMBT-free), diphenylguanidine-free (DPG-free) and cetylpyridinium chloride-free (CPC-free) to minimize the risk of chemical Type IV allergies and sensitivities to these chemical accelerators

RECOMMENDED FOR

- Damp donning
- Easy identification of glove breach
- Protection from latex Type I allergy in HWC's or patients

FEATURED TECHNOLOGIES

 **DERMASHIELD™**
Donning Aid Technology

 **A.R.T™**
Pinhole Barrier Technology

GLOVE-IN-GLOVE™
Pre-donned Double Gloving Technology

HYBRID™
Synthetic Blend Technology

PEARL™
Protein Leaching Technology

SUREFIT™
Cuff Roll-down Technology

GAMMEX® Innovation that Protects

Driven by innovation, GAMMEX® surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.

GAMMEX® PI Glove-in-Glove™ System

SURGICAL GLOVES

PRODUCT INFORMATION

| | |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Material | Outer: PI (Polyisoprene), Neoprene (Polychloroprene); Inner: PI (Polyisoprene) |
| Powder Content | Powder-free |
| Color | Outer: Natural; Inner: Green |
| Shape | Anatomic with curved fingers |
| Internal Glove Surface | Polymer coated with DERMASHIELD™ Technology |
| External Glove Surface | Smooth with micro-textured finish |
| Cuff Style | Beaded with SUREFIT™ Technology |
| Thickness | Outer: Standard; Inner: Micro |
| Grip Level | Moderate |
| Allergy Prevention | Latex (Type I) |
| Freedom From Holes (AQL) | In process control before packing: 0.65 (Inspection level GI), Manufacturing final release: 0.65 (Inspection level GI) |
| Tested For Use With Chemotherapy Drugs | Yes in accordance with ASTM D6978 (Not listed in the US FDA 510k) |

ORDERING INFORMATION

| Size | 5 ½ | 6 | 6 ½ | 7 | 7 ½ | 8 | 8 ½ | 9 |
|----------------------------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|-----------|
| Ansell Product Code | 340084055 | 340084060 | 340084065 | 340084070 | 340084075 | 340084080 | 340084085 | 340084090 |

The product codes indicate the size for both the outer and the inner glove.

PACKAGING AND STORAGE

| | |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Packaging | 2 pairs per pouch; 50 pairs per box (25 pouches); 4 boxes per carton/case; 200 pairs per carton/case (100 pouches) |
| Shelf Life | 3 years |
| Storage Instructions | Keep out of direct sunlight; store in a cool and dry place. Keep away from sources of ozone or ignition. |

STANDARDS AND CERTIFICATIONS

| | |
|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Product Standards | ASTM D3577, ASTM D7160, EN 455 Part 1-4, EN ISO 374-1, EN 374-2 and -4, EN 16523-1, EN ISO 374-5, EN 420, ISO 10282, AS/NZS 4179 |
| Quality / Environmental Standards | ISO 9001, ISO 13485, ISO 14001, ISO 11137-Part 1, EN556 |
