

ENCORE[®] Perry[®] Style 42[®] PF

Surgical Gloves

Latex, powder-free surgical glove with a smooth finish and optimized thickness achieving the ideal balance of protection and tactile sensitivity

This latex, powder-free surgical glove offers the essential protection needed for reliable performance. The thickness of this glove allows for a comfortable fit during surgery.

KEY FEATURES AND BENEFITS:

- Made with proprietary anatomic formers to enhance comfort and fit to help reduce hand fatigue
- Optimized glove thickness for the best balance of protection and tactile sensitivity
- Polymer coated for fast and easy donning

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- Brief, low-risk examination procedures
- Sterile procedures outside of the O.R.
- Use as an outer glove when double gloving
- Sterile procedures in the O.R.

ENCORE[®] The Confidence to Perform

Dedicated to delivering optimized solutions engineered to provide a high degree of confidence to surgeons, O.R. nurses and surgical technicians seeking protection with a high level of dexterity, comfort and grip so they can perform at their best.
