		2-3/4" (70 mm)	2" (51 mm)	37311	K		

What is Convexity?

- The outward curving of some barriers that comes in contact with the skin around the stoma.
- May correct irregularities on the skin around the stoma such as creases or scars.
- May be used when the stoma does not protrude from the abdomen.
- Available in pre-sized and cut-to-fit barriers.
