Adapt CeraRing™ barrier ring

Sealed with the confidence of ceramide

Adapt Barrier Ring technology was introduced more than 10 years ago. Its unique combination of moldability and secure adhesion enhances fit and helps protect skin—making it a favourite among ET and WOC nurses.

Now, innovation has reached the next level, with the introduction of Adapt CeraRing.

Infused with ceramide—a natural component of the skin—Adapt CeraRing is designed to support the healthy peristomal skin your patients deserve. This new formulation helps protect the skin's natural moisture barrier and helps prevent water loss that may lead to damage and dryness.

Experience the confidence of ceramide—try Adapt CeraRing today.

Hollister Ostomy. Details Matter.
