

**STRONG ADHESION.**

**ACCURATE TRACINGS.**

**MedGel® ECG Electrodes**  
Exceptional Reliability, Quality and Selection

# STRONG PERFORMANCE FOR ACCURATE TRACINGS EVERY TIME.

To best diagnose your patient, you need a clear ECG signal. But if the electrodes don't stay securely in place and don't have a high performing gel, you can't get it. We understand. And we can help. Our MedGel<sup>®</sup> Electrodes deliver exceptional adhesive strength and high performing gel for good conductivity. Have unique features that simplify work flow. And come in a full range of choices to meet your clinical priorities.

## **Reliable Monitoring**

- » Strong adhesive holds fast to skin, yet removes cleanly
- » Highly conductive gel ensures optimal signal quality
- » Resealable bag helps keep electrodes from drying out (50 pack only)

## **Easy to Handle**

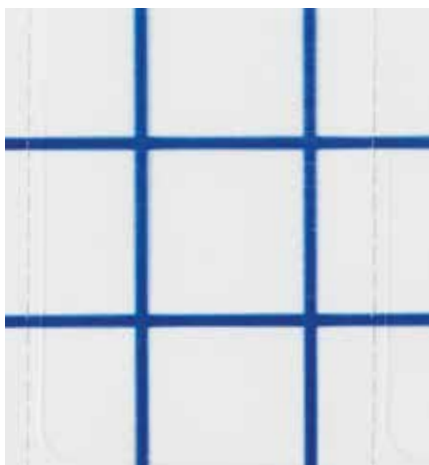

- » Perforated strip backing provides quick, simple lead wire attachment
- » Full-edge lift tab allows easy removal
- » Gridlines on the strip backing help reduce clinician slips

## **Comprehensive Selection**

- » Choose from a variety of materials, shapes and sizes
- » Color-coded packaging streamlines product selection

Perforated strip backing offers easy lead wire attachment.

Gridlines on the strip backing promote clinician safety.

Resealable bag prolongs freshness (50 pack only).

Color-coded packaging makes product selection intuitive.

# General Monitoring

With their specially formulated high-performance gel and extended conductive surface, our general monitoring electrodes give you clear, reliable tracings.

## MedGel General Monitoring Foam Electrodes

Recommended for: ICU/CCU, Emergency, O.R., Patient Rooms

This top seller has a fluid-resistant foam backing.

- » Flexible foam material hugs body contours, ensuring optimal skin contact for consistent tracings

Item No.	Description	Pkg.
MDSM611503	General Monitoring Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611505	General Monitoring Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611550	General Monitoring Foam	50/pk, 1,000/ct, 6,000/cs

MDSM611550

## MedGel General Monitoring Cloth Electrodes

Recommended for: ICU/CCU, Patient Rooms

Provides a gentle fit for patients with sensitive skin.

- » Breathable, non-woven cloth conforms to the natural curves of the patient for enhanced comfort

Item No.	Description	Pkg.
MDSM611303	General Monitoring Cloth	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611305	General Monitoring Cloth	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611350	General Monitoring Cloth	50/pk, 1,000/ct, 6,000/cs

MDSM611350

## MedGel General Monitoring Tape Electrodes

Recommended for: ICU/CCU, Emergency, O.R., Patient Rooms

Offers clear visibility of skin under the electrode.

- » Transparent, breathable tape lets you evaluate the patient's skin without removing the electrode

Item No.	Description	Pkg.
MDSM611403	General Monitoring Tape	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611405	General Monitoring Tape	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611450	General Monitoring Tape	50/pk, 1,000/ct, 6,000/cs

MDSM611450

# Diagnostic Resting Tabs

Our resting tab ECG electrodes use a highly conductive gel to ensure clear tracings for an accurate diagnosis.

## MedGel Resting Tab ECG Electrodes

Recommended for: Cardiology, Emergency

Silver/silver chloride adhesive gel delivers excellent adhesion and signal quality.

- » Large, solid conductive area allows maximum contact with skin

Item No.	Description	Pkg.
MDSM616101	Resting Tab Electrode, Small	100/pk, 500/bx, 5,000/cs
MDSM616201	Resting Tab Electrode, Adult	100/pk, 500/bx, 5,000/cs

MDSM616101

MDSM616201

## Radiotranslucent

Our carbon snap allows these electrodes to be used during X-rays and MRIs in areas where metal is prohibited.

### MedGel Radiotranslucent Foam Electrodes

Recommended for: Cath Lab, Radiology

This top seller has a fluid-resistant foam backing.

- » Flexible foam material follows natural curves of the patient for maximum skin contact

Item No.	Description	Pkg.
MDSM611803R	Radiotranslucent Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611805R	Radiotranslucent Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611850R	Radiotranslucent Foam	50/pk, 1,000/ct, 6,000/cs

MDSM611850R

### MedGel Radiotranslucent Cloth Electrodes

Recommended for: Cath Lab, Radiology

Offers patients with sensitive skin a comfortable fit.

- » Breathable, non-woven cloth gently conforms to the patient's body contours, enhancing comfort

Item No.	Description	Pkg.
MDSM611250R	Radiotranslucent Cloth	50/pk, 1,000/ct, 6,000/cs

MDSM611250R

### MedGel Radiotranslucent Tape Electrodes

Recommended for: Cath Lab, Radiology

Allows clinicians to see the skin without removing the electrode.

- » Clear breathable tape lets you evaluate the patient's skin under the electrode

Item No.	Description	Pkg.
MDSM611650R	Radiotranslucent Tape	50/pk, 1,000/ct, 6,000/cs

MDSM611650R

## Repositionable

These electrodes are designed to adhere firmly even after being repositioned on the patient's skin.

### MedGel Repositionable Electrodes

Recommended for: ICU/CCU, Emergency, O.R., Cath Lab, Radiology, PICU, Patient Rooms

Designed with a conductive hydrogel, our repositionable electrodes are easy to remove and relocate at least once.

- » Provide clear tracings and firm adhesion even after repositioning
- » Carbon snap for standardization throughout your facility
- » Gentle on sensitive skin

Item No.	Description	Pkg.
MDSM611300	Adult, Solid Gel	5/pk, 100/bx, 1,000/cs

MDSM611300

# Stress/Diaphoretic Foam Electrodes

Designed specifically for situations requiring a robust adhesive, these electrodes have a comfortable medical-grade foam that resists fluids. The teardrop shape directs sweat around the electrode and stays securely in place during demanding tracing applications.

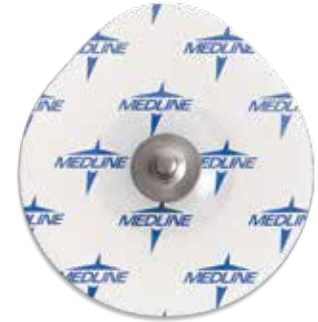

## MedGel Stress/Diaphoretic Foam Electrode

**Recommended for:** Cardiology, Stress Test

Exceptionally powerful adhesive withstands heavy sweating.

- » High-performance gel and large conductive area provide clear tracings

Item No.	Description	Pkg.
MDSM611903	ECG Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611905	ECG Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611950	ECG Stress Foam	50/pk, 1,000/ct, 6,000/cs

MDSM611950

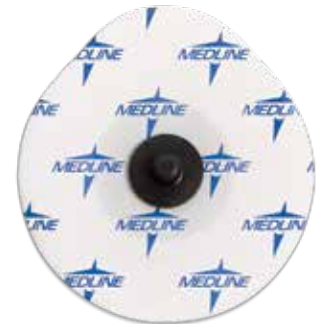

## MedGel Radiotranslucent Stress/Diaphoretic Foam Electrode

**Recommended for:** Cardiology, Cath Lab, Radiology, Stress Test

Engineered for radiotranslucent situations that require a stronger adhesive.

- » Carbon snap can be used during procedures and in areas where metal is prohibited
- » High-performance gel and extended conductive surface ensure clear tracings

Item No.	Description	Pkg.
MDSM611703R	Radiotranslucent Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM611705R	Radiotranslucent Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM611750R	Radiotranslucent Stress Foam	50/pk, 1,000/ct, 6,000/cs

MDSM611750R

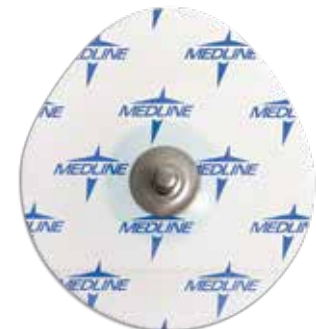

## MedGel Wet Gel Stress/Diaphoretic Foam Electrode

**Recommended for:** Cardiology, Stress Test, EMS

Provides quick reading and stabilization, particularly during heavy patient sweating.

- » Highly conductive liquid gel promotes instant, high-quality trace pickup

Item No.	Description	Pkg.
MDSM618303	Wet Gel Stress Foam	3/pk, 60/bx, 600/ct, 3,600/cs
MDSM618305	Wet Gel Stress Foam	5/pk, 100/bx, 1,000/ct, 6,000/cs
MDSM618350	Wet Gel Stress Foam	50/pk, 1,000/ct, 6,000/cs

MDSM618350

# Pediatric Electrodes

Our pediatric electrodes are carefully designed with children in mind. They feature a small footprint, soft materials and greater gel coverage for gentle application and removal.

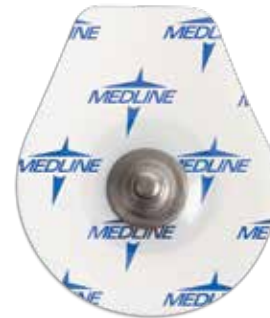

## MedGel Pediatric Foam Electrode

Recommended for: PICU

With their smaller size these electrodes are a perfect fit for young patients.

- » High-performance gel and extended conductive surface ensure clear tracings
- » Easy removal with lift tab

Item No.	Description	Pkg.
MDSM611050	Pediatric Foam	50/pkg, 1,000/ct, 6,000/cs

MDSM611050

## MedGel Pediatric Radiotranslucent Electrode

Recommended for: Cath Lab, Radiology, PICU

Our carbon snap allows these electrodes to remain on skin during procedures and in areas where metal is prohibited.

- » Radiotranslucent foam and small size
- » High-performance gel and extended conductive surface provide clear tracings
- » Easy removal with lift tab

Item No.	Description	Pkg.
MDSM6112250R	Pediatric Radiotranslucent Foam	50/pkg, 1,000/ct, 6,000/cs

MDSM6112250R

## MedGel Pre-Wired Neonatal Electrode

Recommended for: NICU

Gentle, breathable tape and ouchless removal with 100% gel coverage make these electrodes perfect for neonatal patients.

- » Three baby-sized electrodes come pre-wired for convenience
- » High-performance gel and extended conductive surface deliver clear tracings every time

Item No.	Description	Pkg.
MDSM61123	Neonatal Clear Tape	3/pkg, 300/ct, 3,600/cs
MDSM61143R	Neonatal Radiotranslucent Clear Tape	3/pkg, 300/ct, 3,600/cs

MDSM61143R

## MedGel Electrodes

### Recommended Electrodes for Optimal Utilization

This list is not comprehensive and should be used as a recommended guideline only.
