Advanced[™] Form

The last piece to the perfect fit

SafeTouch[®] Advanced[™] Form

Next generation in ultra slim technology.

In 2010, Medicom launched the first generation of a super thin nitrile glove: SafeTouch Ultra Slim. Since then, slim, thin and ultra light gloves have gained in popularity as they offer great protection coupled with great fit.

Capitalizing on the most recent advances in nitrile technologies, Medicom is proud to launch the next generation of SafeTouch Ultra Slim: SafeTouch Advanced Form.

SafeTouch Advanced Form gloves are engineered to offer the ultimate fit. The gloves adapt to the form of the hand and fit like a second skin to allow freedom of movement and dexterity for a feeling like no other. They are crafted from the finest materials available that offer improvements in fit, form and feel while offering the protection required to those who protect and care for others.

Medicom is driven by a commitment to provide the highest quality gloves available. New SafeTouch Advanced Form gloves are premium quality gloves that also offer great savings. Packed 200 gloves per box, these gloves offer increased value by reducing the cost per glove.

When a glove fits as well as Advanced Form does, you know it's from SafeTouch, because as a market leader in gloves, we take pride in the protection and fit we offer

NITRILE for best protection
